

## How to use receptivity.

To install the project run the following commands.

**npm install**

**npm start**

Join Session

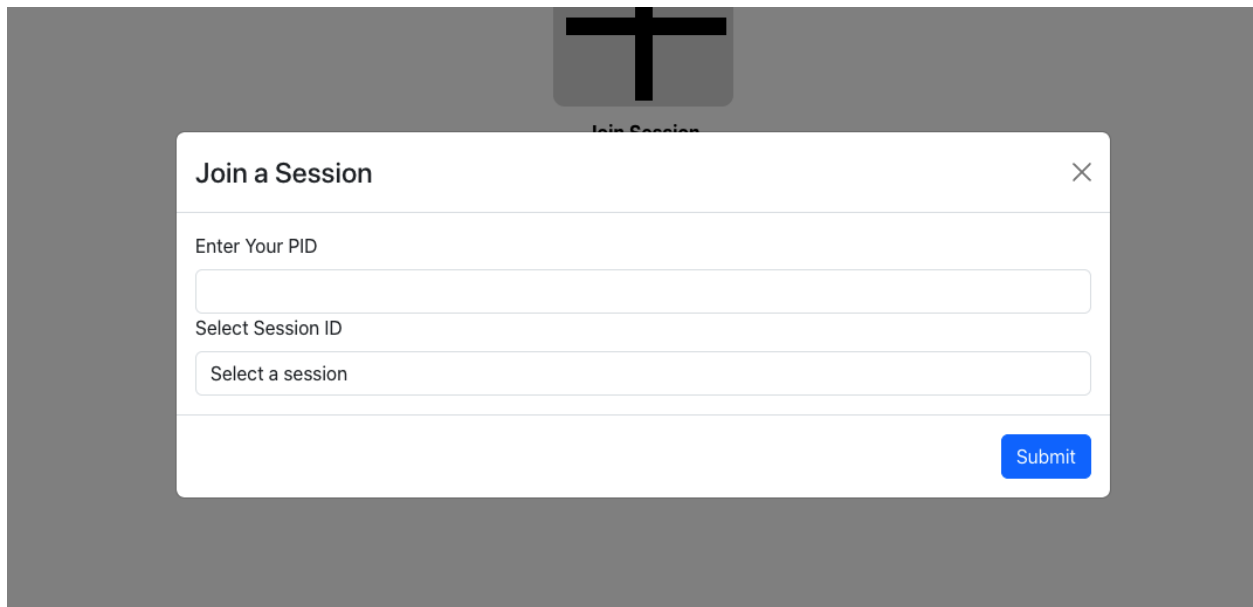

How to use Receptivity?

Fig1: Landing Page

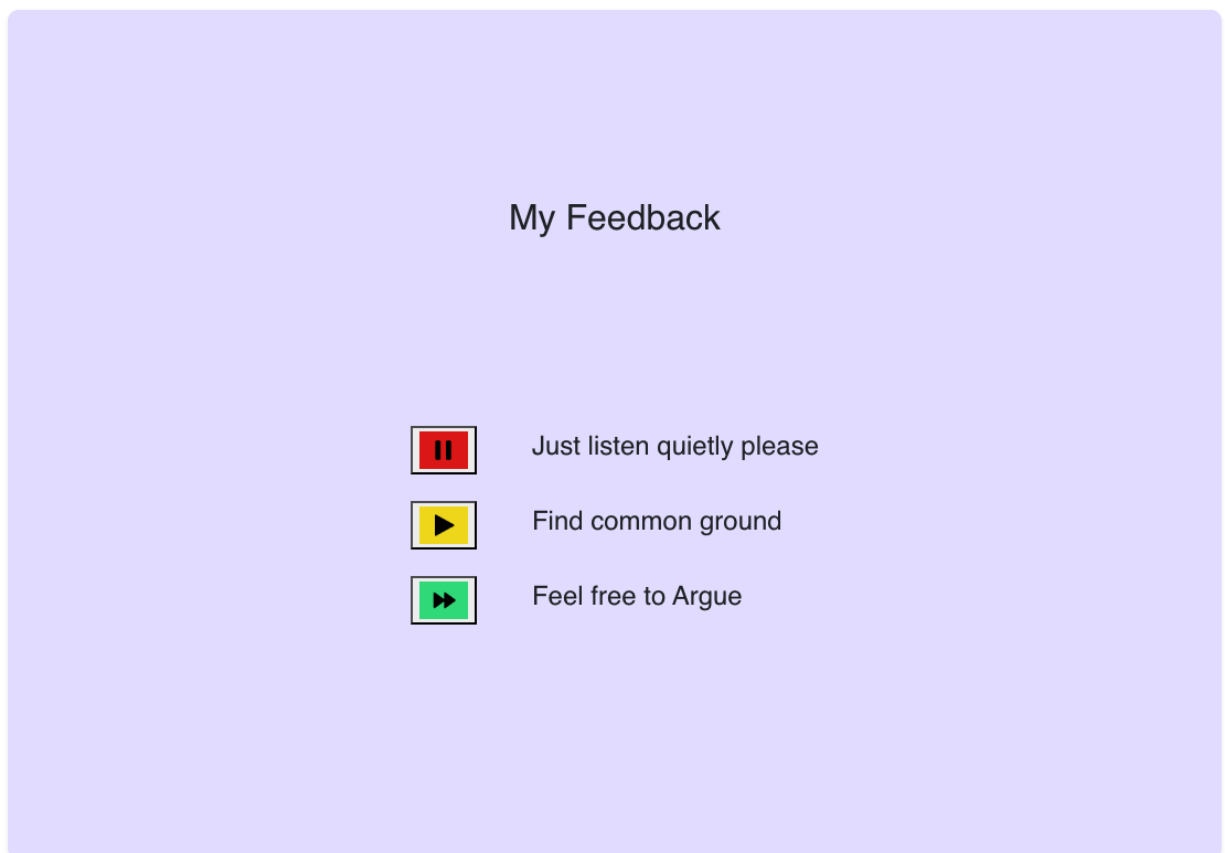

Start by clicking on Join Session.

Enter your PID and Select the Session ID

A dialog box titled "Join a Session" with a close button (X) in the top right corner. It contains two input fields: "Enter Your PID" and "Select Session ID". The "Select Session ID" field has a dropdown menu with the text "Select a session". A blue "Submit" button is located at the bottom right of the dialog box.

Fig 2: Entering the user details.

A screen titled "My Feedback" with a light purple background. It displays three feedback options, each with a colored icon and a text label:

-  Just listen quietly please
-  Find common ground
-  Feel free to Argue

Fig 3: Feedback options

You can choose any one of the above options.

Fig 3: Voting bar

After the participants have provided their feedback, the voting bar is going to be highlighted with colors depending on the number of votes for each option.

After Providing your feedback, you can choose the clear my feedback from the Group Feedback section. This will remove your feedback.

### Group Feedback

A form titled "Group Feedback" containing two buttons. The first button is labeled "How Receptive are you feeling right now?" and the second button is labeled "Clear my Feedback".

Fig 5: Group Feedback Options

The participant list can be seen at the top right corner of the page.
